## AWEX Commentary

This past series of sales has seen a decline in the fine and Superfine market. Having said that, the fleeces suffering the largest discounts were those of lower style and carrying high mid-break percentages. Reductions of between 30 and 40 cents were common with many lots showing several faults. This week concludes sales for 3 weeks as the trade take the traditional mid-year recess.

The best price achieved at auction this week was 2,000 cents greasy for a bale branded PYRENEES/PARK and described SUPULTRAFINE. This lot was purchased by G Schneider Australia.
