AWEX Buyer-Code Masking Trial

AWEX members are reminded that the buyer-code masking trial will commence this week. As noted in previous advice, the trial is in response to concerns raised by some AWEX Buyer Members regarding the ready availability of detailed auction information in the wider wool industry. The following services will be affected for a period of six months:

- AWEX Online "Gallery" folder (drill-down detail data)
- AWEX Online custom reports
- e2 auction viewer
- e2 LPB (Talman system online catalogue).

In all cases the buyer code shall only be visible to the purchaser of the wool.

AWEX Members will be surveyed at the conclusion of the trial and the results will be presented to the AWEX Board in late 2015.

For further information contact Mark Grave mgrave@awex.com.au
