Appointment – Wool Technical Officer Western Region

AWEX is pleased to announce the appointment of Andrew Rickwood as Wool Technical Officer Western Region.

Andrew is well known in the wool industry having previously worked as a wool buyer with Michell Australia in both Southern and Western Regions, Modiano Australia (WA) and Swan Wool. Andrew also worked with Primaries of WA and has a full appreciation of the wool pipeline from the farm gate.

Andrew's background in appraisal, IT and his understanding of wool markets will add depth to the AWEX market reporting service.

Andrew's appointment is effective today. Over the coming weeks he will be working closely with AWEX Wool Technical Officer, David Aslett, meeting members and assisting in his transition to this role.

David Aslett will be retiring in July after serving the West Australian wool industry and members as the principal AWEX Western Region representative for nearly 22 years.

Andrew can be contacted on:
