N77/23/3.0 WOOL SELLING PROGRAMS

3.1 MID-YEAR RECESS

The committee spent considerable time discussing the Mid-Year Recess. Broker Representatives were in favour of reducing the Recess to two weeks while the Buyer Representatives were strongly in favour of maintaining the Recess at three weeks. The Chairman advised that as the committee was deadlocked on this matter, it was best to move on to the next agenda item, which was the timing of the break.

The committee was asked to consider a proposal received requesting that the Mid-Year Recess be pushed back to August. The reasons given for this move were that having more Sales in July could more evenly spread this load across four Sales instead of the current two.

The second reason given was that the amount of wool historically offered over August was marginally less than that of July. The Secretary was asked to provide figures to support this, these figures have been added as an addendum to the Outcomes.

All members of the committee supported this proposal in principle and the committee agreed that a trial of two years pushing the Mid-Year Recess back to Weeks 5,6 and 7. The committee further agreed that this would be trialled starting in the 2024/25 season.

OUTCOME: Starting in the 2024/25 season the Mid-Year three-week Recess will be moved from Weeks 3,4 and 5 to Weeks 5,6 and 7 on a two-year trial basis. This decision will be reviewed at the end of the trial period.

ACTION(S) On the Tentative 2024/25 Wool Selling Program move the Mid-Year three-week Recess from Weeks 3,4 and 5 to Weeks 5,6 and 7.

3.2 AUSTRALIAN SUPERFINE SALES

Arising from correspondence considered at NASC76, the committee discussed the number and quality of designated Australian Superfine (AS) Sales. The original correspondence questioned whether these Sales contained enough Superfine wool and were meeting the needs of both seller and buyer sectors.

It was noted that the original implementation of AS Sales was to assist transition from the Newcastle centre and that wool production of Australian Superfine types had fallen over time.

Broker Representatives reported that Superfine grower clients are optioning the first available Sale or when market conditions suit, rather than waiting for the next Superfine Sale. The committee agreed that it supported retention of Australian Superfine Sales but perhaps the number should be reduced to assist aggregation of true to type Saxon style wool.

NATIONAL AUCTION SELLING COMMITTEE

It was agreed that the 2023/24 Australian Superfine Sales will remain unchanged and that in the 2024/25 the number of Superfine Sales will be reduced in consultation with seller and buyer sectors. The Larger Broker Representative was asked to survey his constituents as to which Sales they believed may be excess to the current market needs.

OUTCOME: Australian Superfine Sales in the 2023/24 Wool Selling Program to remain unchanged. Australian Superfine Sales in the Tentative 2024/25 Wool Selling Program to be reviewed /reduced.

ACTION(S) The Large Seller Representative to consult his constituents to determine which Australian Superfine Sales may have less support and these are to be flagged in the Tentative 2024/25 Wool Selling Program for potential removal.

ACTION(S) The 2024/205 Tentative Wool Selling Program to be issued to the trade with above change.

N77/23/4.0 EARLY ROOM START BUSINESS RULE

The committee received a submission in the North proposing that the wording of the Sydney rule covering an early room start where there is a large imbalance from the current wording to “a quantity approaching one hour’s selling”. Under current selling conditions this in Sydney this is approximately 250 lots (per hour). The submission suggested this wording may be appropriate for both Sydney and Melbourne.

The committee discussed this proposal and the current business rule itself, with the Northern Representatives leading the discussion. The committee agreed that this proposal would be hard to quantify and there was a preference for a lot value. Seller Representatives reported there was increasing push-back from their constituents on the current early start wording.

OUTCOME: The Northern Buyer and Seller Representatives to come up with a room difference number that will trigger an early room start (quantity exceeds 800/900 lots and imbalance was 250/275 lots was a suggested starting point). Once figures are agreed Representatives to canvass their constituents and this issue to be decided/resolved at next meeting.

ACTION(S) Northern Representatives to review/refine the (Sydney) Early Room Start Business Rule.

N77/23/5.0 CATALOGUE DEADLINES

The committee received a submission from the Southern Seller Representative asking NASC to consider whether catalogue transmission deadlines in Melbourne could be moved forward. The committee was provided with the proposed changes. The proposal was designed to enable buyers to have access to two selling days of catalogues on a Friday.

The committee discussed this topic at length. Following from the discussions the Chairman noted that this was a topic that is continually raised and believed the best way forward would be for the South and Large Seller Representatives to go to their constituents and see what could be done. Once they have done this the Chairman asked that a working group be formed, consisting of Southern and Fourth Buyer Representatives and Southern and Large Broker Representatives, who will meet away from the committee, with the aim of coming up with a proposal on Catalogue Deadlines, to be discussed at NASC-78.

OUTCOME: A Working Group to be formed consisting of committee members with constituents in the Southern Region with the aim of developing a submission on Melbourne Catalogue Deadlines, to be added to the NASC-78 agenda for further discussion.

ACTION(S) Southern and Large Seller Representatives to canvass their constituents to see what is possible to achieve regarding Melbourne Catalogue Deadlines.

Once completed, Southern and Fourth Buyer Representatives and Southern and Large Seller Representatives to form working group to develop a paper on Melbourne Catalogue Deadlines for consideration at NASC-78.

NATIONAL AUCTION SELLING COMMITTEE

N77/23/6.0 SELLING DAYS

The committee considered correspondence from Northern Region proposing selling days be changed from Tuesday/Wednesday back to Wednesday/Thursday.

The committee was advised that as the change to Tuesday/Wednesday selling was a national change, implemented only after significant consultation, it was recommended that any decision on this topic should only be taken after a similar process is exercised including with ACWEP.

One factor mentioned in the correspondence request was the disruption that Public Holidays have been having, with sale days moving locally in weeks where there is a Public Holiday (in another State).

It was noted that there are two policies at play: (1) Tuesday/Wednesday Selling, and (2) minimisation of days selling in isolation (most often seen during State Public Holidays).

The committee discussed this proposal, after which the Chairman asked the Northern Buyer Representative to canvass principals in his region over this proposal: if the majority of principals support a move back to Wednesday/Thursday selling further discussion is warranted.

OUTCOME: The Northern Buyer Representative to canvass principals on a change to Wednesday/Thursday selling. If the majority support such a move the Secretary is to be informed and this topic added to NASC-78 agenda.

ACTION(S) Northern Buyer Representative to canvass principals on this topic and advise the Secretary on the outcome.

N77/23/7.0 ESTIMATES AND ACTUALS

AWEX was asked to provide a Report comparing broker transmission quantities compared to Selling Arrangements quantities. Buyers reported increasing frustration with significant changes that have been occurring recently.

The Secretary advised the committee that AWEX has completed a build of a Pre-Sale Variance Report and an example of this was provided to the committee.

A decision on whether this will be a daily run will be made subject to feedback, only those wishing to receive the Report will be added to the distribution list.

N77/23/8.0 ROOM IMBALANCE (LATE SUBMISSION)

The issue of quantity imbalance between Room 1 and Room 2 in Melbourne, particularly between December and April, continues to be problematic. The reason for this difference is (mostly) attributed to the seasonal influx of crossbred wool during this period, which is offered in Room 2.

The critical issue(s) with the room imbalance are:

- a) Room 2 driving the number of 3-day Sales and
- b) when Room 2 requires three selling days, this correspondingly reduces the daily quantities in Room 1, which some believe are too small.

The committee believed it was necessary to establish a Working Group to identify which options are available, and which are likely to get broker/buyer support.

The Chairman asked the Southern and Large Broker Representatives to ask another broker to join the working group and the Southern and Fourth Buyer Representatives to ask another buyer to join the group, then meet offline to explore options, this topic will then be further discussed at NASC-78.

NATIONAL AUCTION SELLING COMMITTEE

OUTCOME: Southern Buyer and Broker Representatives, Large broker and Fourth Buyer Representatives and a Southern Buyer and Broker to form a Working Group to identify options and recommendations to address room imbalance in Melbourne.

ACTION(S) A Working Group to be formed to consider possible mechanisms to address Room Imbalance in Melbourne. Southern Broker Representative and Large Broker Representative to invite another Southern broker to join. Southern Buyer and Fourth Buyer to invite another Southern Buyer to join Working Group.
Add Room Imbalance – Melbourne to NASC-78 Agenda.

N77/23/9.0 OTHER BUSINESS

9.1 MAXIMUM LOT ALOCATION (MLA)

This was an information item. The committee was advised that M37 was oversubscribed by 80 lots. The MLA was applied with five brokers asked to remove lots. The committee was reminded of the business rules surrounding the MLA.

9.2 INCREASING DAILY LIMITS TO OFFSET WITHDRAWN AND PASSED IN LOTS

This item was deferred to NASC-78.

ACTION(S) Add Increasing Daily Limits to Offset Withdrawn and Passed in Lots to NASC-78 agenda.

9.3 SHOWCASE SALE

The Fourth Buyer Representative advised the committee that she had been asked by some constituents as to the possibility of an away feature Sale. The Chairman advised that the best way forward was for the Fourth Buyer Representative to liaise with the Secretary offline about how such a proposal would work, and if there was enough support for this item add it to a future Agenda.
