Supporting Explanations

[^]Mulesing	The removal of skin from the breech <u>and/or</u> tail of a sheep using mulesing shears. <i>Source:</i> Australian Animal Welfare Standards and Guidelines for Sheep prepared by Animal Health Australia, V1.0 2016.
[#]Liquid Nitrogen	The application of liquid nitrogen where ultra-low temperatures are used to degenerate tissue and result in the removal of skin from the breech <u>and/or</u> tail of a sheep.
